- Notes :
1. For each player the computer selects the lowest score for each hole played during the Competitions.
 2. The total of these best scores is modified by subtracting half of the players handicap to give the Adjusted Total'.
 3. When the adjusted totals are equal the order is then based on the Handicap, with the lowest first.
 4. A zero for any hole results in a No Return (NR)

If there are any queries regarding the Handicaps please contact David Garbut
